PROFESSIONAL EXPERIENCE

Mindfire Solution, Bhubaneswar— *Senior Software Test Engineer*

Jan 2024- Present

SleepIQ — Jan 2024 - Present(E-commerce Domain)

Tools & Technologies: Java, Selenium, Cucumber, JIRA, Manual testing, Postman, Gradle, Robot Framework, AWS, CI/CD, Mysql, Boundary

Responsibilities & Achievements:

- Designed and developed a scalable hybrid automation framework (POM + Data-Driven + Keyword-Driven) using Java and Selenium.
- Automated regression and functional test cases, improving test coverage and reducing manual testing effort.
- Integrated automated test suites with Jenkins CI/CD pipelines for scheduled and on-demand execution.
- Collaborated with DevOps teams to resolve CI/CD and environment-related issues.
- Performed testing across AWS-hosted environments, ensuring application stability.
- Prepared detailed Test Plans and Test Summary Reports for release cycles.
- Validated deployments across DEV, QA, TEST, and PROD environments.

CGI, Bangalore— *Senior Test Engineer*

Jul 2022 - Jan 2024

EMU Mortgage — Jul 2022 - Present(Banking Domain)

Tools & Technologies: Java, Selenium, Cucumber, JIRA, Manual testing, Postman, Karate, MS SQL Server, Gradle

Responsibilities & Achievements:

- Automated key modules of loan processing application using Java, Selenium, and Cucumber.
- Worked on closing and funding modules ensuring high-quality releases.
- Used Jira X-Ray for test case execution, defect tracking, and reporting.
- Prepared test strategies, test summaries, and release reports.
- Actively participated in Agile ceremonies including sprint planning and refinement.
- Improved regression cycle efficiency through automation implementation.

TECHNICAL SKILLS

Languages: Java, Python (Basic)

Automation Tools: Selenium WebDriver, TestNG, Cucumber

API Testing: Karate Framework, REST Assured, Postman

Frameworks: Hybrid Framework (Data-Driven + Keyword-Driven), POM

CI/CD Tools: Jenkins, Maven

Cloud: AWS

Databases: MySQL, SQL Server

Tools: JIRA, Git

Concepts: SDLC, STLC, Agile, BDD

Certification

Selenium WebDriver – Udemy
SQL – Udemy

LANGUAGES

English, Hindi, Odia

EDUCATION

Gandhi Engineering College,
Bhubaneswar— *Btech*, **2013 - 2017**

IQVIA, Bangalore— *QA Analyst* (Healthcare Domain)

Jan 2022 - Jul 2022

HTA(Health Technology Assessment) — Jan 2022 - Jul 2022

Tools & Technologies: Java, Selenium, TestNG, JIRA, Manual testing

Responsibilities & Achievements:

- Automated web applications using Selenium and TestNG.
- Performed extensive manual testing to ensure application quality.
- Created detailed test scenarios and test cases based on business requirements.
- Identified and reported defects, improving overall product stability.

Legato Health Technologies, Bangalore— *Software Engineer*

April 2019 - Dec 2021 (HealthCare Domain)

Tools & Technologies: JAVA, SELENIUM, TestNG, Log4j, JIRA, SQL SERVER, Cucumber, Manual testing, karate, Rest Assured, Maven

Responsibilities & Achievements:

- Developed automation frameworks using Selenium WebDriver, TestNG, and POM.
- Built data-driven frameworks using Java and Apache POI.
- Automated healthcare applications (EFX Portal, Claims Xtn, WGS).
- Performed API testing using REST Assured.
- Generated test reports using Extent Reports.
- Worked with Maven for project management and build automation.
- Created test cases, traceability matrix, and defect reports.
- Participated in Agile development cycles and release activities.

I now declare that the information furnished above is accurate to the best of my knowledge.
